Made Simple.

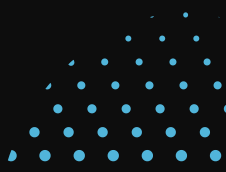

# EVENT 1

## #1. Team Formation and Collaboration

Students will be organized into teams of up to four members. This team-based approach aims to facilitate teamwork and collaboration, reflecting real-world business environments where individuals work together to achieve common goals. The team structure encourages students to pool their knowledge, skills, and perspectives, leading to more well-rounded and strategic decision-making processes.

## #2. Investment Simulation

Each team will start with an equal amount of virtual investment capital at the beginning of the conference. This capital will serve as the basis for their investment activities in the online portal throughout the event. The portal will offer a variety of stocks and investment opportunities for students to explore and invest in.

# EVENT 1

## #3. Documenting Investment Activities

Throughout the conference, teams will document their investment activities, including their initial strategies, the stocks they choose to invest in, and the outcomes of their decisions. This documentation will include records of gains and losses, as well as the rationale behind each investment choice. By keeping detailed records, students will be able to track their progress, analyze the effectiveness of their strategies, and learn from their experiences.

## #4. Presentations and Reflections

Towards the end of the conference, each team will prepare a presentation summarizing their activities over the two days. These presentations will cover several key aspects:

- **Learning Outcomes:** Students will reflect on what they have learned about investment strategies, market dynamics, and the decision-making process.
- **Gains and Losses:** Teams will present their financial outcomes, highlighting their successes and discussing any losses they incurred.
- **Strategies:** Each team will explain their investment strategies, including the reasoning behind their choices and any adjustments made in response to market conditions.

# Event Information **Event 2**

## Workshops and Seminars

During the conference, a series of engaging seminars and workshops will be presented by a distinguished panel of judges. These sessions are designed to provide attendees with valuable insights and knowledge drawn from the judges' extensive industry experience. Each judge will focus on different aspects of their field of expertise, ensuring a diverse and comprehensive array of topics that cater to various interests and professional aspirations.

The seminars and workshops will cover a broad spectrum of subjects, ranging from the latest industry trends and innovations to practical skills and career development strategies. Attendees will have the opportunity to learn about cutting-edge technologies, best practices, and emerging opportunities in their respective fields. Whether the focus is on engineering, business, healthcare, technology, or the arts, there will be something for everyone.

These educational sessions are designed to be inclusive and accessible to all students. Participation in the practical components of the conference is not a prerequisite for attending the workshops and seminars. All students, regardless of their level of experience or field of study, are encouraged to take advantage of this unique opportunity to expand their knowledge, network with industry professionals, and gain valuable insights that can help shape future careers.

## Live Q&A Panel with Judges

Event 3 is a live Q&A panel featuring our esteemed judges, designed to provide students with an interactive platform to clear any doubts and gain insights into various topics related to finance and commerce. This session will offer a unique opportunity for students to engage directly with industry experts and thought leaders, addressing their queries and concerns about ongoing trends, challenges, and opportunities in the financial and commercial sectors.

During the live Q&A session, students will have the chance to ask questions about current financial markets, economic forecasts, investment strategies, business management, and regulatory developments. The judges will provide detailed and thoughtful responses, drawing from their professional experiences and academic backgrounds. This interactive format will encourage open dialogue and foster a deeper understanding of the subjects discussed.

Whether students are looking to clarify specific concepts, seek career advice, or simply broaden their understanding of the financial and commercial landscape, this live Q&A panel will serve as an invaluable resource. The session will also provide an excellent networking opportunity, allowing students to build connections with industry leaders and fellow peers who share similar interests and aspirations.
